

Old Farm Members,

Many of you have noticed that you can not pay until you have uploaded a photo to your account. This is a measure taken by the membership system to ensure all members have properly registered and we can monitor entrance at the front desk.

To upload a photograph, you just need to go to your membership page, then on the right side of the screen, under “Members”, click edit for each member who needs a photo, then click on “Click to Upload Image”. You will, of course, need a photo stored on your device to upload.
